By my signature I authorize any holder of medical information about me to be released to my primary care physician or any other physician, hospital, ancillary facilities in order that I may be provided continuity of care. (A copy may be used in place of the original signature). Furthermore, I understand my signature requests that payment be made to the physician and authorizes release of medical information to pay the claim. If item 9 of the HCFA-1500 claim form is completed, my signature authorizes releasing of the information to the insurer or agency shown. In Medicare assigned cases, the physician or supplier agrees to accept the charge determination of Medicare as the full charge and the patient is responsible only for the deductible, coinsurance and non-covered services. Coinsurance and deductible are based upon the charge determination of Medicare. Physician or suppliers may assign other insurance payment and may not necessarily accept as full payment the amount paid by the other insurance company. The same applies for other insurance companies other than Medicare. Although the staff at Seashore verifies eligibility before providing services it is my responsibility to pay any unpaid claims. I, the Guarantor, understand that I am fully responsible for payment of services provided. I will pay any balance due that insurance does not cover or pay. I will pay all expenses incurred by this office. You agree to reimburse us the fees of any collection agency, which may be based on a percentage at a maximum of 50% of the debt, and all costs, and expenses, including but not limited to reasonable attorney's fees, that we may incur in such collection efforts.

INFORMATION REGARDING DILATING EYE DROPS

Dilating drops are used to dilate or enlarge the pupils of the eye to allow the ophthalmologist to get a better view of the inside of your eye. Dilating drops frequently blur vision for a length of time which varies from person to person and may make bright lights bothersome. It is not possible for your ophthalmologist to predict how much your vision will be affected. Because driving may be difficult immediately after an examination, it's best if you make arrangements not to drive. Adverse reaction, such as acute angle-closure glaucoma, may be triggered from the dilating drops. This is extremely rare and treatable with immediate medical attention. I hereby authorize Dr. Tarabishy and/or such assistants as may be designated by him/her to administer dilating eye drops. The eye drops are necessary to diagnose my condition.
